

BRETT M. CASADY

349 Lincoln Ave. Lima, Ohio | 567-242-3325 | brettmcasady@gmail.com

OBJECTIVE

To contribute to an outstanding development team, helping to create cutting edge websites and web apps using the latest technologies.

COMPUTER SKILLS

- Website creation and maintenance
- Programming language knowledge and experience in: HTML5, CSS3, Javascript, jQuery, bootstrap, SQL, Objective C, JSON, AJAX, ASP.NET/C#, COBOL, RPGLE, PHP, Visual Basic and some of the .NET framework.
- Some experience with CSS preprocessors and recently have been dedicated to achieving overall page optimization.
- Experience using a version control system such as Github.
- Constantly trying to learn new frameworks, languages and techniques to better myself as a programmer.

EXPERIENCE

01/2016 – Current

IT Help Desk / AV Technician, *Rhodes State College: Lima, Ohio*

- Introduced to the support roles for IT within a business setting. A majority of my time was spent as an AV Technician and I was in charge of troubleshooting hardware problems, configuring IP connections to our bridge for Video Conferencing with other schools and managing scheduled video content on our media server. I was also in charge of running events we hosted for other businesses. These events required dressing professionally and expertise in managing a room with multiple projectors, remote PC inputs and knowledge of the rooms wiring configuration. In my off time I covered the Help Desk assisting with password resets and managing student Active Directory entries. I was also responsible for imaging new PCs, and installing requested software on employee PCs. I occasionally handled various hardware repairs on PCs that needed to be fixed.

07/2014 – 03/2015

Software/Web Developer, *K&M Tire: Delphos, Ohio*

- Introduced to programming within an active business environment. I was responsible for completing tasks delegated to me. Frequently interacting with other companies via email to assist them with accessing our data via API keys. Primary focus was going over previously made programs and troubleshooting bugs or adding in new desired features. Responsible for setting up data to use XML and export to .CSV functionality. Updated and maintained smaller parts of the primary website. Wrote some internal web apps that focused on large data pulls and data manipulation.

02/2012 – 06/2014

Tire Technician, *Sam's Club: Lima, Ohio*

- Introduced to and learned basic mechanic skills. Learned to properly mount and demount tires without harm to rims or TPMS sensors. Learned about pinch welds and various vehicle frame locations. Learned to change a battery and safely dispose battery acid. Attended Michelin training and awarded plaque for passing. Certified by Michelin with knowledge on all of their products to date.
